

## TO LESSEN DIVORCE BY TRAINING GIRLS

Cleveland Has "Ideal Home"  
as Part of School  
System.

### PUPILS DO WORK

Untidy Housekeeping Res-  
ponsible for Dissatisfied  
Husbands, Teacher Says.

By United Press.  
CLEVELAND, March 19.—Cleveland,  
the city in the United States with the  
unenviable record of one divorce for  
every four marriages annually is now  
teaching its little girls how to be  
ideal wives some years hence.

The Marion school, a part of the  
city's educational system, is devoted  
to tutoring fourteen-year-old girls in  
the art of domestic science.

"It's a solution of part of the di-  
vorce evil," said Miss Estelle Han-  
chette, a teacher in charge of the  
"ideal home" kept by the girls of the  
school. "Untidy homes are many times  
responsible for dissatisfied husbands."

The "ideal home" is across the  
street from the school in the heart  
of the congested district. It was once  
a filthy unsanitary tenement. Dirt  
was literally hoed from the floors.  
Half-a-dozen layers of old wall paper  
covered with filth and dirt were ta-  
ken from the walls. The building was

given a thorough scrubbing and then  
the "future wives" took charge.

They obtained estimates for the  
painting and papering and every arti-  
cle of furniture from gas stoves to drap-  
eries and linen. Miss Hanchette took  
them to the stores to buy everything.  
Economy was the first consideration.  
The early class cleans floors and  
windows and sweeps. No girl has  
enough to do to tire her. Each is  
taught simple methods of cleaning.

The second class buys and prepares  
the lunch. The next class eats the  
meal and the late class cleans the  
dishes and ends the day in sewing.  
The classes rotate each day so that  
the work is different. The house con-  
tains kitchen, dining room, pantry,  
bed rooms and clothes closets.

"The children are so enthusiastic  
about their work," said Miss Han-  
chette. "I am firmly convinced that  
the future husbands of those of the  
"ideal home" pupils who marry, will  
never enter a divorce court. No man  
would want to lose a wife whose  
knowledge of her home, and whose in-  
terest in it was a small per cent even,  
of the interest, the pupils now show in  
the "ideal home."

### WILSON AND McADOO CONFER

Division of Federal Reserve Districts  
Was Discussed.

By United Press.  
WASHINGTON, March 19.—Presi-  
dent Wilson and Secretary McAdoo  
conferred on the operation of the new  
currency law. They took up the ques-  
tion of the division of the federal re-  
serve districts and the cities in which  
reserve banks will be placed.

Mr. McAdoo explained the work  
which will be before the organized  
board. He said the details will not  
be told before the first of April. The  
names of the members of the Federal  
Reserve Board will be withheld until  
then. Mr. McAdoo told the President  
that preliminary reports indicate the  
income tax is producing more revenue  
than had been expected.

## ST. LOUIS CLUB WILL ADVERTISE AT HOME

University Life in Picture

High Schools.

### EASTER IS THE TIME

Students to Boost With  
Speeches—History of  
Organization.

The St. Louis Club, an organization  
of 150 students of the University, liv-  
ing in St. Louis and the suburbs, will  
conduct a campaign to advertise the  
University among high school stu-  
dents during the Easter holidays. Ar-  
rangements have been made with the  
principals of the four high schools in  
St. Louis to give stereopticon lectures  
at the schools April 10, 13 and 14.

About one hundred slides showing  
University buildings and University  
life have been loaned to the club by  
the secretary of the University. The  
1913 football team and the "Kick That  
Beat Kansas" will be featured.

Graduates of the different high  
schools now attending the University  
will make short talks. Joseph Gravely  
will talk at McKinley High School;  
Warren Brown at Yeatman, E. Ustick  
Bain at Soldan and M. E. Bernet,  
captain of this year's Tiger basketball  
team and former basketball star at  
Central High School, will speak at that  
school.

The St. Louis Club was organized  
in 1910, but the meetings were not  
well attended. The club did not ac-  
complish anything. Mr. Bernet, the  
present president of the club said,  
"That was my first year and I can  
remember the club was a weak or-  
ganization." The club did not organize  
during the years 1911-1912, but was  
reorganized in October 1913. The fol-  
lowing officers were elected: Presi-  
dent, M. E. Bernet; vice-president,  
Ramona Walters; secretary, Helen  
Aylesbury; treasurer, Ustick Bain.

The annual dance of the club will  
be held Friday night, March 27, in  
Columbia hall. The members of the  
dance committee are: Chairman, Ed-  
win Walters; Hildegard Waugh, Helen  
Aylesbury and Carlyle Johnston.

### DEBATES ON LITERACY TEST

Squad Working Under D. C. McEuen—  
Colorado Here April 16.

With the first intercollegiate debate  
less than a month off, the debating  
squad is working under the direction  
of D. C. McEuen of the English de-  
partment to polish up their arguments  
on the subject of a literacy test for  
immigrants. All three of the debates  
this year will be on this subject.

The debates with the University of  
Colorado and the University of Texas  
will come on the same night, April  
16. Colorado will be met here. For  
Missouri Paul Carrington and Frank  
R. Chambers will uphold the affirma-  
tive of the question, "Resolved, that a  
literacy test along the lines of the  
Dillingham-Burnett Bill should be re-  
quired of all immigrants." The nega-  
tive of the same question will be ta-  
ken by G. Smith and R. H. Limbaugh,  
who will represent Missouri in the de-  
bate against Texas at Austin. Guy  
Head and E. K. Lutes will argue for  
a literacy test against Kansas who  
will be met later in April at Lawrence.  
The alternates for the different teams  
have not been chosen.

### TO USE GREEK JAVELIN HERE

Will Be Thrown In Exhibition Games  
—Popular In East.

What looked very much like a fish-  
ing pole was delivered at Rothwell  
Gymnasium this morning. It was "an  
imported Greek javelin."

The "fishing pole" is an eight-foot  
varnished stick, rounded and tapering  
slightly, with a sharp steel point on  
its larger end. The middle of the shaft  
is wrapped with cord, in order to  
afford a good hand-grip.

The javelin throw for distance is a  
field event that is displacing the ham-  
mer throw in athletic meets over the  
country. It is not yet on the schedule  
of the Missouri Valley Conference, but  
is a regular event on the card for the  
Penn relay games held at Philadel-  
phia.

The javelin received this morning is  
an exact duplicate of that used in the  
Olympic games. It will be thrown in  
exhibitions this spring.
